

To: All Ministries of Justice in the World

In Attention: departments responsible for relations with other justice institutions

Regarding: request for support and awareness of the violation and the very serious situation of the fulfillment of justice within the justice institutions in Romania

Connection: facts that require the intervention and support of magistrates from other countries and also consideration regarding the establishment of the Institution of Justice under the Holy Daco-Gypsy Empire in Romania

Dear magistrates, from international justice institutions,

The undersigned Samuel Caraliu-Durlea, a Romanian citizen, domiciled in the municipality of Bucharest, Sector 3, as a victim of the free-thinking magistrates of the Phantom State of Romania, I am making this complaint, in self-defense against crimes committed by magistrates in the Romanian justice system:

I AM FORMULATING THIS REQUEST FOR HELP IN THE CONTEXT WHERE FREE THINKERS FROM THE MINISTRY OF JUSTICE IN ROMANIA HAVE COMMITTED AND CONTINUE TO COMMIT CRIMES AGAINST GOD/ALLAH,

More precisely, free thinkers in Romania commit, with the support of representatives from the Romanian Ministry of the Interior, but also others from the Phantom State of Romania, the following crimes:

1. Crime 1: they gave free rein to "parapantism";
2. Crime 2: they gave free rein to "parașutism";
3. Crime 3: they gave free rein to the stealing of minor's daily bread;
4. Crime 4: Disregard the presumption that they are not right;
5. And others are not as important.

Crime 1 - "parapantism"

Judges, members of the magistrates in Romania, started ruling in the sense of promoting "parapantism", that is, the lifting of childrens by means of a method specific to aviation, which lifts childrens from one legal body to another or into the sky.

Crime 2 - "parașutism"

Judges, members of the magistrates in Romania, began to rule in the sense of promoting "parașutismul", i.e. the landing of minors lifted in the sky / air via the "parapantism" method (from point 1), in good conditions, via a method specific to aviation named parașutism - using a parachute to land children safely in other legal bodies.

Crime 3 - "ciordeles" from the daily bread of childs

Judges, members of the magistrates in Romania, began to order in the sense of promoting, protecting and committing "ciordeles" actions. Ciordeles means the theft of children's daily bread, which is a deed that is punished through the Judeo-Christianity religion, and for which the Terrible Last Judgment was also applied to ze jews.

Crime 4 - the presumption that they are wrong

Judges, members of the magistrates in Romania, despite the fact that the lawlessness is and has been brought to their attention, i.e. respecting the presumption that they are not right, these, free thinkers of the Phantom State Romania, continue in their arrogant march, they will, effectively, to fight with God.

Clarifications

The above views are brought to the attention of all the Ministries of Justice in the world, through this request for help and support, which was sent through e-mail communications, in order to stop the free thinkers in Romanian justice.

In the sense of the principle of legitimate defense, the undersigned romanian citizen, established the Institution of Justice of the Holy Daco-Gypsy Empire, a state-in-state structure, which aims to dictate the New World Order.

But, it seems, something more than this is needed...

For which the present request for intervention is formulated, either through the financial support requested here, or through the support of the Institution of Justice under the Holy Daco-Gypsy Empire, in the sense of the affiliation of all the institutions of justice in the world to the holy causes of the Holy Empire, which are enunciated in the Creed of Justice, which is the basis of the Institution of Justice of the Holy Empire that aims to dictate the New World Order.
